

Please Join Us for our Annual Fragile X Conference

Featuring Marcia Braden, Ph.D.

BEHAVIORAL AND EDUCATIONAL STRATEGIES THAT WORK

Saturday, February 26, 2011

9:30 am – 5:00 pm

Seattle Children's Hospital

Children's Hospital is a secure facility. Pre-registration is REQUIRED. You will receive directions as how to access the building with the RSVP confirmation.

Please remit **\$20 fee to: FXAWS, 15025 70th Ave NE, Kenmore, WA 98028.** Payment must be received by Feb 15th, 2011. An **email address** also needs to accompany the check; this is how you will receive your confirmation letter and information needed to access the hospital. Non-registered guests will not be allowed to attend the conference. Please allow ample time for parking and checking in. For questions, contact Cathy Broberg; 425-488-2948 or cathyann402@gmail.com

Special Guest Speakers

Marcia Braden, Ph.D., is a licensed psychologist with a clinical practice specializing in children and adolescents. She is a former teacher with experience teaching general and special education. She has written and published numerous articles related to education and behavior management strategies, techniques, and interventions. She is a contributing author to the book *Fragile X Syndrome; Diagnosis, Treatment, and Research*, compiled and edited by Randi and Paul Hagerman and Children with Fragile X Syndrome. Dr. Braden frequently consults with parents, therapists, educators, and medical staff about effective treatments. Respected for her work internationally, she has presented at numerous conferences and workshops about Fragile X Syndrome, autism, and other related disorders.

Gwen Glew, M.D. MPH, is a developmental pediatrician at Seattle Children's Hospital and the University of Washington. She has worked in pediatrics for 14 years and is a Fellow of the American Academy of Pediatrics. She is a member of the Clinic Consortium of the National Fragile X Foundation and has a special interest in Fragile X, Autism, prematurity, and Cerebral Palsy.

Three education clock hours are available through this conference.
