## PROPOSED CUTS THREATEN POOR – ADVOCATES NEEDED!

The special session of the State Legislature begins on Nov. 28<sup>th</sup>. Citizen advocates are urgently needed because of the budget deficit. Essential human services, housing and health care face elimination. A woman who relies on these programs wrote the following earlier this month to Catholic Community Services (CCS):

"Some struggles and simple things can be so very hard sometimes. When you don't have your own place or you lost your place, every simple little thing means the world to you - from a shower, to food, warmth, clothes, even a Q-tip. You appreciate more because your eyes are wide open; your heart is thriving to heal. Keep your head up! Take all the help you can get. Meet GOD halfway. Dreams are always possible; so dream."
