# Robotics Extravaganza

It's here!!

*The first-ever*

## Catholic Schools Robotics Extravaganza

Meet the Port of Seattle Bomb Disposal Robot, look under the hood of a 120-lb robot quick as the wind that makes 40 ft basketball shots, wear a prosthetic limb that connects and then moves on command, watch a robot perform high-tech chemical titrations, and see the mind-blowing technology that's bringing us closer to moving robots using electrodes and thoughts only.... Is this really possible?????

But that's not all!!!! Middle school students are showcasing their very creative robotics projects – they've created worlds and robots that are one-of-a-kind incredible. It's a morning that you won't want to miss!!!!

When: Saturday, April 28<sup>th</sup>  
Time: 9:30-1:00  
Where: Seattle Prep High School Gym  
Cost: FREE!!!!

Brace yourself. It's going to be AMAZING!!!!
