

Common Core State Standards Summit

From “What” to “How”: How Common Core State Standards Should Influence Teaching, Learning, and Leadership

As the Common Core State Standards gain momentum, The Center is at the forefront of providing solutions that will not only help you learn, but will also help you apply and implement the standards in your district or school.

Spend an engaging day understanding the big picture of Common Core State Standards, their means of adoption, and how they will affect what you’re already doing. Learn to meet the needs of all learners, as well as how these standards will affect policy and leadership.

Summit Date and Location:

November 13, 2012
Seattle, Washington
