FertilityCare™ Center

About NaProTECHNOLOGY®

Through more than 30 years of scientific research in the study of normal and abnormal states of menstrual and fertility cycles, NaProTECHNOLOGY® (Natural Procreative Technology) is a major breakthrough in women's health science that monitors and maintains a woman's reproductive and gynecological health. NaProTECHNOLOGY® incorporates the Creighton Model FertilityCare™ System biomarkers to objectively monitor the occurrence of various hormonal events during the menstrual cycle.

Unlike common suppressive or destructive approaches, NaProTECHNOLOGY® medical and surgical treatments work cooperatively with a woman's gynecologic and reproductive system to identify and correct the underlying cause of conditions such as infertility, pelvic pain, miscarriage, postpartum depression, heavy bleeding, menstrual cramps, premenstrual syndrome, and prevention of preterm birth.

About Dr. Thomas W. Hilgers

Thomas W. Hilgers, MD, is the founder and director of the Pope Paul VI Institute for the Study of Human Reproduction and the director of the National Center for Women's Health in Omaha, Nebraska. Working at the St. Louis University and Creighton University Schools of Medicine, Hilgers and his co-workers developed the Creighton Model FertilityCare™ System.

Dr. Hilgers is currently a senior medical consultant in obstetrics, gynecology, and reproductive medicine and surgery at the Pope Paul VI Institute, which is internationally recognized for its outstanding achievements in the field of natural fertility regulation and reproductive medicine. He is a clinical professor in the Department of Obstetrics and Gynecology at Creighton University School of Medicine, Omaha, Nebraska.

In 1994, Dr. Hilgers was appointed to permanent membership to the Pontifical Academy for Life. In 2004, Dr. Hilgers published the definitive textbook on natural procreative technology, *The Medical and Surgical Practice of NaProTECHNOLOGY®*. Over 1000 teachers of the Creighton Model System and 300 physicians have been trained through the education programs of the Pope Paul VI Institute.
