## Educational Conference

Saturday, April 20, 2013  
8:00 am - 12:00 pm

Lake Washington Room  
Bellevue Westin Hotel  
600 Bellevue Way, NE, 3rd Floor  
Bellevue, WA 98004

This conference is open to educators, administrators, parents, tutors and those focused on making a difference in the lives of children and adults with learning challenges.

**8:00-9:45 am: Maryjane Palmer, Ed. D.**

**Word Finding Isn't Only on the Tip of Your Tongue: The relationship to oral reading and written language**

This presentation will describe semantic and form based error patterns in oral language, oral reading, and written language and what to do about it.

**10:00-12:00 pm: Nancy Cushen White, Ed. D.**

**Common Core State Standards: Challenges related to students with dyslexia and language-based learning disabilities**

Recognizing instructional and assessment implications of the Common Core State Standards (CCSS) is essential for all educators. The CCSS **describe what students should know** in order to succeed beyond high school, but they **do not specify how** students should learn the subject matter. The CCSS do not address individual variations in learning. Ensuring that students with language-based learning disabilities are able to achieve mastery of the CCSS requires an understanding of the challenges posed by their implementation.

Registration opens at 7:30 am

Approved for clock hours through 247Ed and continuing education units through University of San Diego. Clock hours and CEU information will be provided at the conference.
