Find the Best BidPal® Fit for Your Organization

BidPal wants to work with you. That's why our delivery options allow you to choose the service that best matches your needs. Whether you go with BidPal's industry leading secure WiFi solution, a cellular event, or a blend with Hybrid™, BidPal's got you covered. BidPal adds more fun and excitement to your event while maximizing your fundraising revenue.

BidPal WiFi, Cellular, or Hybrid Solution. The choice is yours.

BidPal WiFi

- Ensures your guests have access to a self-contained, secure WiFi network for a consistent bidding experience
- ALL guests can have access to a bidding device
- Bid from anywhere within the secure network

BidPal Cellular

- Guests bid using their own smartphones
- Bid anywhere there is cell service (including offsite)
- Guests without smartphones can bid on kiosks strategically placed throughout the event*

BidPal Hybrid

- A blend of the cellular solution with our secure WiFi network
- ALL guests can participate in bidding with either their own phones via the cellular networks or one of the 100 BidPal devices brought onsite through the secure WiFi network

BidPal includes:

Everything in -"one place" - manage sponsors, guests, donors, and auction packages online

Outbid alerts invigorate the crowd and promote competitive bidding

A website option that allows guests to register, buy tickets and bid before and after the event

Instant express checkout and credit card processing

No more paper bid sheets - guests will commend you for "going green"

New avenues for sponsorship with logo placement on event website, bidding device, and Scoreboard

Ability for guests to securely make a charitable contribution or fund-a-need

One-click reports that make post-event reconciliation and analysis a cinch

* Kiosks are provided at an additional charge.
