Catholic Schools'

Listen.... Can you hear it?????

**POP!** ZING!!! Crash!?!

Wheeeeeee!

The robots are coming!!!!
And they're throwing things like crazy all across the Archdiocese!
Are you coming?
Are you building?
It's not too late to get started on your wackier-than-ever robotics project.

The Robotics Extravaganza will be the place to throw, launch, toss, and fling anything (and everything) that you can imagine.... Are you up to the challenge?

Besides ... where else can you mention "lobbing balls of flame" and "boulders of doom" in the same sentence?

Catholic Schools' Robotics Extravaganza Saturday, May 3, 2014 9am – 11am Seattle Prep Gym

For more information or to get on the registration list, contact Terry Hickey at <a href="mailto:t.hickey@stbens.net">t.hickey@stbens.net</a> Registration opens soon - \$6 per student. All programming and building levels welcome! How many teams will *your* school send?
