

# 24-HOUR LAB SAFETY SHORT COURSE (LAB SAFETY BOOTCAMP)

**Hosted by Seattle University**  
**Presented by The Laboratory Safety Institute**

## Introduction:

Thousands of safety professionals and educators have already attended this comprehensive short course. This Lab Safety BootCamp will appeal to those with responsibility for lab safety, or who must teach or practice safe laboratory procedures in an educational setting, hospital, government lab, private sector lab, or any other laboratory.

For over 35 years, LSI has been the nations only nonprofit educational institute for laboratory safety.

## Course Outline and Learning Outcomes:

Learn to identify and manage common laboratory hazards, and many you may not have considered. Discover how federal, state and local EH&S requirements apply to the laboratory environment, and how to improve regulatory compliance, reduce liability exposure, and convince others to care more about health, safety and the environment.

## Who Should Attend?

- Environmental, Health & Safety Professionals
- Science, Art & Technology Educators / Researchers
- Business Officers / School Administrators
- Risk Managers/ Operations Managers
- Lab Managers / Supervisors / Workers

## Discussion Topics:

Accidents	Labeling
Biological & Animal Hazards	Legal Aspects of Safety
Chemical Handling & Storage	Needs Assessment
Compressed Gases	OSHA Bloodborne Pathogen Std.
Critique and Discussion	OSHA Lab Standard
