

To: All Principals
From: Karen Tarabochia
Re: Future Principals
Date: September 2010

ACTION REQUIRED

During the past few years this office has offered seminars for teachers who were in university programs to get their administration credentials. In these meetings aspects of the role of principal that are unique to the Catholic school were explored. The areas addressed were: principal as faith leader, financial considerations, the law and Catholic schools and governance.

As you can see each year there are more opportunities for new principal candidates to "take the place" of those principals who are moving on. Some of the new principals this fall are "graduates" of this program. I find them far better prepared for the job than many of us were when we began! I want to continue to offer this program, to those candidates who attended last year, and to new potential candidates. I need your help to identify potential and continuing candidates.

Please identify any candidates pursuing an administration credential or expressing an interest in future Catholic school administration.

Please pass on the following information to those candidates and forward their names to our office. The first meeting is **October 20, 2010** so time is critical!

Thank you so much for your help!

Please list the name[s] of anyone on your faculty who is pursuing a credential in school administration and you would release to attend 2 meetings during the 2010-2011 school year.
