

# *Join Us for a Day of* **PROFESSIONAL DEVELOPMENT**

*sessions provided by* **Catapult Learning**

**Two informative sessions geared towards  
improving collaboration and assessment strategies!**

**March 18, 2016 • 8:30 AM – 3:30 PM**  
**St. Matthew School • 1230 NE 127th St, Seattle, WA 98125**

## **DEVELOPING EFFECTIVE GRADE LEVEL TEAMS**

*8:30 – 11:30 AM*

We all have heard about the value of collaboration and working as a team, but how do you go about creating a team that is productive and helps achieve results? In this session, participants will learn about the skills that are needed for successful collaboration, and how to ensure that teamwork is sustained and leveraged, even when team members change.

## **EXAMINING ASSESSMENT PRACTICES**

*12:30 – 3:30 PM*

Participants in this session will survey their own assessment practices and plan for growth. Teachers will experience a wide range of assessment strategies, ranging from reflective writing to diagramming and games. Participants will engage in defining the term assessment and take a personal inventory of current means of collecting evidence of learning, distinguish formative assessment vs. summative assessment, examine the gray areas in between, and determine an appropriate ratio between the two and identify and apply criteria for evaluating the quality of assessments on grade-level and subject-specific sample tasks.
