

Archdiocese of Seattle Summer Professional Learning Workshop:

Technology Driven Formative and Summative Assessment Strategies

~ with Fredy Padovan

Workshop Overview: This hands-on session will introduce five engaging K-12 technology tools that work across all devices and help teachers quickly gain rich information about their students' progress and needs. Educators will leave the workshop with practical tools they can implement immediately in their classrooms this fall.

About the Presenter:

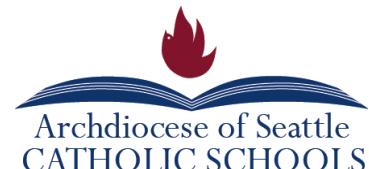

Fredy Padovan is the founder of EDjuvinator and iTeach Academy focusing on educational technology and school environment consulting. He was Dean of Innovation and Technology at Immaculata-La Salle High School, and began their 1:1 iPad program iLearn@ILS, recognized as an Apple Distinguished program for the past five years. Fredy is an Apple Distinguished Educator and recipient of the NCEA Education Excellence Award. He holds a Graduate Certificate in Education Technology, a Masters in Education, an Ed.S. in Educational Leadership and is finishing a Doctoral program in Global Education Leadership and Policy.
