

The Math Games results are in!

Skulls, spider webs, and ruby red blood drops greeted our challengers for this fun day of math! Feathers were flying as mathematicians faced bouncing zombie eyeballs, sparkly skeletons, bug milkshakes, and relay race graphing!

The Math Games mania has spread through the Archdiocese, with almost 175 8th graders from 18 different schools joining the fun. It was a collection of math brainpower that nearly blew the roof off of the Seattle Prep gym! The following schools were simply math amazing:

Sacred Heart School	St. Anne School
Seattle Nativity School	St. Bernadette School
